- G. Operating mode – change the mode of your heating or cooling equipment
- H. Temperature set points – use the arrows to adjust your desired heating or cooling temperatures
- I. Menu button – view more thermostat features and preferences

WI-FI® SETUP AND REGISTRATION

The Carrier® Côt™ thermostat provides you the most features and energy savings when connected to your personal web portal.

To begin, tap **Menu > Settings > Register Thermostat** then follow the on-screen instructions.

To save time, we recommend having your home Wi-Fi® network password and your Internet-connected device close to the thermostat before you begin.

DOWNLOAD APP AND ACCESS WEB PORTAL

Control From Your Mobile Devices

The Carrier® Côt™ thermostat app supports both iOS and Android™ devices. Visit your device's app store to download the free mobile app.

Access Your Web Portal

Log into your personal web portal at **carrier.com/myhome** to customize your preferences and track how the smart features of the Carrier Côt thermostat are saving on energy costs every month.

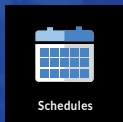

CUSTOMIZE YOUR COMFORT SETTINGS

Use your mobile app or web portal to adjust your comfort from anywhere in the home, or while you're away.

Comfort Profiles

Dial in your preferred comfort level with temperature, fan and humidity settings. Set up standard profiles like wake, home, away and sleep or create your own custom profile.

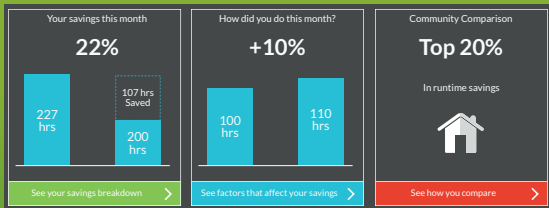

Guided Scheduling

The Guided Scheduling feature will prompt you with simple questions to help you customize a schedule which meets your desired comfort level and lifestyle.

ENERGY REPORTS AND TIPS

Starting today, the Carrier® Côr™ thermostat began tracking your energy costs and learning about your home to decrease your energy use.

In one month, your first energy report will be ready and you'll see how your system has performed. In the meantime, check your web portal for daily runtime reports.
