1 Overview

Section Changeover Software

Section Changeover Software renames the section (Floor, Tenant, Area, Monthly report tenant), and targets “Smart BMS Manager” and “Touch Screen Controller”.

Report Creation Software

“Report Creation Software” is a software which calculates and outputs “Daily” and “Monthly” report of air conditioners, and targets “Smart BMS Manager” and “Touch Screen Controller”.

2 System Requirements

The following shows the recommended system requirements of this software.

<table>

- Adobe, the Adobe logo, Reader, and Acrobat are either registered trademarks or trademarks of Adobe Systems Incorporated in the United States and/or other countries.

- InstallShield is either a registered trademark or trademark of Flexera Software Inc. in the United States and/or other countries.

- All other company and product names are either registered trademarks or trademarks of the respective owners. In this manual such names are not indicated by ™, ® or © marks.
3 Installation and Uninstallation

This chapter describes how to install and uninstall.

Installation

Insert the installation CD/DVD into the CD/DVD drive. On the displayed window, click the [Install] button of “Section Changeover Software” and “Report Creation Software”. Setup will be started.

- If setup does not start, open the “Software” folder under “Report Creation Software” on the CD/DVD-ROM, then double-click “RCS setup for North America.exe”.
- If setup does not start, open the “Software” folder under “Section Changeover Software” on the CD/DVD-ROM, then double-click “setup for North America.exe”.

Language selection

Choose a language to be used and click [OK]. The selected language is used hereafter in the Software. Selectable languages are English, French and Spanish.
When the required program is not installed
When the required program is not installed, the following window will be displayed.

Follow the instructions on the screen and confirm the installing program. Click [Install] to install the required program.
Installation preparation

The installation preparation starts. Wait for a while until the preparation is complete.
Welcome
When the preparation has been completed, the following window will appear. Click “Next”.

![Welcome window](image.png)
License Agreement
The License Agreement window appears. Read the software license agreement. If you agree then select “I accept the terms in the license agreement” and click “Next”.

![License Agreement Window](image)
Customer Information
The Customer Information window then appears. Enter your user name and organization and then click “Next”. 

![Customer Information Window]

User Name: Toshiba Carrier Co.
Organization: Toshiba Carrier Co.
Destination Folder
The Destination Folder selection window appears. To confirm the indicated location, click “Next”. To change the location, click “Change”.

![Destination Folder Window](image-url)
Change Current Destination Folder
The Change Current Destination Folder window appears. Select your preferred location, and click “OK”.

![Change Current Destination Folder window]

Look in:
- Report Creation Software for North America

Folder name:
- C:\Program Files\Toshiba\Report Creation Software for North America

InstallShield
- OK
- Cancel
Ready to Start the Installation
The InstallShield announces that it is ready to start the actual installation. Click “Install”.

![Ready to Install the Program dialog box with 'Install' button highlighted]
Software Installation
A progress meter appears while the software is being installed. Wait for a while until installation is complete.
Installation Completed

When the installation is complete, the following window appears. Click “Finish”.

![InstallShield Wizard Completed window](image)
Uninstallation

If the Report Creation Software for North America is active, first exit the software. Go to “Uninstall or change a program” from “Control Panel”. Select “Report Creation Software for North America”, and click “Uninstall”.

The confirmation dialog box appears. Click “Yes”.

The following window appears. Wait for a while until uninstallation is complete.

When the uninstallation is complete, the above window automatically closes.
4 Network Configuration

4.1 Connecting LAN Cable

Connect a LAN cable to the LAN connector of “Smart BMS Manager” and “Touch Screen Controller”. For details of the connection procedure, refer to the instruction manual of the specific product.

Connect a LAN cable to the LAN connector of the client PC on which “Section Changeover Software” and “Report Creation Software” are installed.

Note
When using a single LAN cable to connect “Smart BMS Manager” and “Touch Screen Controller” to the client PC, use a crossover LAN cable.

4.2 Client PC Settings

On the client PC, set the IP address to 192.168.2.*** (** should be a value other than 30 or 80) and the subnet mask to 255.255.255.0.

Note
The IP addresses of “Smart BMS Manager” and “Touch Screen Controller” are preset at the factory. For the client PC, use a value other than 30 or 80.
If the IP addresses of “Smart BMS Manager” and “Touch Screen Controller” have been changed, change the IP address of the client PC to an address within the same segment.
<Windows 7>
1) Log on to the system with the PC administrator’s account.
2) Click “Start” → “Control Panel”.
3) Click “Network and Sharing Center”.

4) Click “Local Area Connection” of View your active networks.

5) Click “Properties”.

![Image of Local Area Connection Status window showing properties option highlighted]

7) Select “Use the following IP address:”, and set as follows:
   IP address: 192.168.2.*** (***: Excluding 30, 80)
   Subnet mask: 255.255.255.0
   Then click “OK”.

8) Close all the windows.
<Windows 8.1>
1) Log on to the system with the PC administrator’s account.
2) Right-click the “Start” button to display the menu. 
   Click “Control Panel” in the menu.

3) Click “Network and Sharing Center”.
4) Click "Ethernet" of View your active networks.

![Network and Sharing Center](image1)

5) Click “Properties”.

![Ethernet Status](image2)

7) Select “Use the following IP address:”, and set as follows:
   IP address: 192.168.2.*** (**: Excluding 30, 80)
   Subnet mask: 255.255.255.0
   Then click “OK”.

8) Close all the windows.
