Côt 5C & Côt 7C Updates

As part of our focus on continuous improvement, we are happy to introduce the enhancements listed below for Côt 5C & Côt 7C thermostats. You must download the latest version of the mobile app to access the new/improved features.

Thermostat:

- 1) Added ability to repurpose the Thermostat Hum Terminal for Dehum. There will be a TIC bulletin released shortly.
 - a. Applicable only for variable speed furnaces with Dehum terminal
- 2) Added advanced ventilation capabilities – See Advance installation instructions for details.
- 3) Optimized Wi-Fi® setup/commissioning flow (**only with thermostat firmware 2.11 or higher**)

Mobile App:

- 1) Account linking/commissioning flow
- 2) Optimized Wi-Fi setup (**only with thermostat firmware 2.11 or higher**)

These updates will be available over the air (OTA). When the update is installed on thermostat, it will reboot and the screen will go blank while it is rebooting.

Key Dates:

Mobile app update availability (App Stores)	Now
Firmware update (Over the air)	Now
Installation Instructions, Owner’s Manual – HVAC partners	Now
